

# Why We Need Data Product Specifications (DPS)

HATORI Tomohiko

(JICA Expert)

10 August 2020

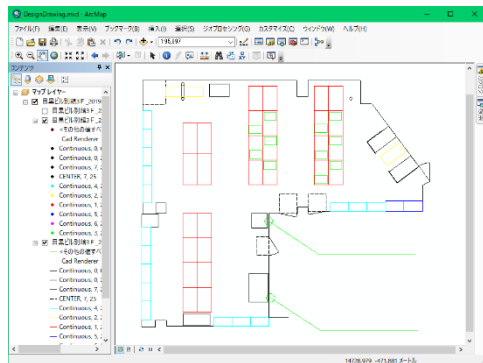

## Definition of DPS (ISO 19131)

# Data Product Specification

detailed description of a dataset or dataset series together with additional information that will enable it to be **created, supplied to and used by another party.**

# Role of DPS 1: Design drawing of the data

Design drawing of building  
(by Architect)

Construction of building  
(by Constructor)

Data Product Specifications  
(by Responsible Organization)

Descriptions on;

Theme / purpose of the data,  
Data content and structure,  
Required quality criteria,  
Rules of metadata,  
etc.

Creation of data  
(by Data creator)

**How the data should be**

# Role of DPS 2: Guide for another party

## User's Request

Theme, Area, Features, Attributes, Scale, Data quality, ...

How to Identify

Metadata

Items on;

Theme / purpose of the data,  
Responsible organization,  
Spatial / temporal Extent,  
Results of data quality evaluations,  
etc.

**Brief information on  
how the data actually is**

How to Use

Data Product Specifications

Descriptions on;

Theme / purpose of the data,  
Data content and structure,  
Required quality criteria,  
Rules of metadata,  
etc.

**More detail information  
with informal descriptions**

# DPS Creation for the Existing Data

Role of DPS 1: Design drawing of the data

You can use the DPS as an instruction document when the data is updated.

Role of DPS 2: Guide for another party  
User's manual for data utilization

Role of DPS 3: Facilitate the coordination  
Easy to compare the same thematic data created by multiple organizations (extent, contents, quality, additional information, etc. )

# Patterns of DPS Creation

1. Creation of a new DPS based on the guidelines  
Create a new DPS in accordance with the guidelines for DPS.
2. Creation of a new DPS based on the standard / similar DPS  
Partially modify a standardized or similar category's DPS. Also refer the guidelines for DPS.
3. Creation of the DPS and data simultaneously  
Prepare a set of geographic data and the DPS simultaneously. Also refer the guidelines for DPS.

# General Structure of DPS (ISO 19131)

1. Overview (including informal descriptions)
2. Specification scopes
3. Data product identification
4. Data content and structure (Data Catalogue)
5. Reference systems (Spatial / Temporal)
6. Data quality
7. Data product delivery
8. Metadata
9. Others (additional information)

Refer the Guidelines for Data Product Specifications (DRAFT) for each content.

# Guidelines for DPS, Data Quality, Metadata

## Guidelines for Data Product Specifications

Rules of how to develop the DPS

### Guidelines for Metadata

Mandatory items,  
Optional Items,  
etc.

### Guidelines for Data Quality

Categories of data quality,  
How to evaluate the data  
quality, etc.

# (DRAFT) Work Schedule of DPS Preparation

| Year/Month |   | Expected effects  | Original period (2 years: from August 2019) |   |                        |                  |                             |                  |   |                  |                         |                   |   |   | Extended period (6 months) |   |   |   |    |                    |
|------------|---|---|---|---|------------------------|------------------|-----------------------------|------------------|---|------------------|-------------------------|-------------------|---|---|----------------------------|---|---|---|----|--------------------|
|            |   |   | 2020  |   |                        |                  |                             |                  | 2021  |                  |                         |                   |   |   | 2022                       |   |   |   |    |                    |
|            |   |   | 6   | 7 | 8                      | 9                | 10                          | 11               | 12  | 1                | 2                       | 3                 | 4 | 5 | 6                          | 7 | 8 | 9 | 10 | 11                 |

|            | Open Seminar  | Appeal the NSDI to all stakeholders   |   |   |                        |                  |                             |                  |   |                  |                         |                   |   |   |                            |   |   |   |    | ★NSDI Open Seminar |
| Mod        | NSDI Policy   | All stakeholders can promote and utilize the NSDI based on the policy.                        | [Blue bar: Aug 2020 - Dec 2020]             |   |                        |                  |                             |                  |   |                  |                         |                   |   |   |                            |   |   |   |    |                    |
|            | Planning (short, mid & long-term)                               | Share the necessary steps to promote and utilize the NSDI.                                    |   |   |                        |                  | Prepare draft plan with SoB |                  | Discussion, authorization & revision by JCC/PSC   |                  |                         |                   |   |   |                            |   |   |   |    |                    |
| SoB        | Review the draft guidelines for DPS, Data quality and Metadata  | SoB understands the standardization for NSDI.   |   |   |                        |                  |                             |                  |   |                  |                         |                   |   |   |                            |   |   |   |    |                    |
|            | Support WGMs' DPS preparation with the consultant and J/E       | SoB takes the leadership to promote the preparation of WGMs' DPS with the consultant and J/E. |   |   |                        |                  |                             |                  |   |                  |                         |                   |   |   |                            |   |   |   |    |                    |
| WGMs       | Prepare DPS by each WGM based on the guidelines                 | WGMs can share each other the detail information of the data through their DPS.               |   |   |                        |                  |                             |                  |   |                  |                         |                   |   |   |                            |   |   |   |    |                    |
|            | Update the draft guidelines based on the preparation of the DPS | WGMs understands the guidelines. WGMs appeal the guidelines at the Open Seminar.              |   |   |                        |                  |                             |                  |   |                  |                         |                   |   |   |                            |   |   |   |    |                    |
| JPN Expert | Prepare the DRAFT Guidelines for DPS, Data quality and Metadata | WGMs can prepare their DPS based on the guidelines.   |   |   |                        |                  |                             |                  |   |                  |                         |                   |   |   |                            |   |   |   |    |                    |
|            | Support SoB and WGMs' activities                                | SoB and WGMs obtain the support from the J/E for their activities.                            | Remote work in Japan                        |   |                        |                  |                             |                  | J/E are dispatched periodically to support activities of SoB, WGMs with the consultant. |                  |                         |                   |   |   |                            |   |   |   |    |                    |
|            | Prepare and implement the bid for the consultant                | Assign the consultant to support the WGMs for preparation of their DPS.                       |   |   |                        |                  |                             |                  |   |                  |                         |                   |   |   |                            |   |   |   |    |                    |
| Consultant | Support the preparation of DPS by WGMs                          | WGMs obtain the support from the consultant for preparation of their DPS.                     |   |   |                        |                  |                             |                  |   |                  |                         |                   |   |   |                            |   |   |   |    |                    |
